

# Information Technology Services

## Preston Mobility Information Technology Services

*Reduce downtime and maximize productivity with Preston Mobility's comprehensive IT services.*

Our in-house certified technicians can perform a complete IT assessment — and help you establish a baseline for improvements. Or, we can assist your IT resources in seamlessly implementing new technologies, and integrating these technologies with your current systems and enterprise solutions.

### IT Assessment Services

Let Preston Mobility analyze your company's IT needs, current service levels and solutions - and quantify your current IT maturity. We'll identify the strengths and weaknesses in your current IT services and management processes - and establish baselines for improvements. This could include:

- More flexibility in your IT infrastructure
- Better control over service and infrastructure changes
- Aligned priorities
- A more responsive IT staff and a more receptive IT environment
- Improved accountability and end-user satisfaction
- Better management and control over IT contracts and assets

### Our IT Assessment Includes:

- Complete inventory of all on-site IT related assets
- System availability, performance, and reliability report
- Current backup and disaster recovery plan
- Storage infrastructure and utilization report
- Documentation of current IT infrastructure
- A report highlighting the most critical issues and the top three to five recommendations

### Solutions Design

After consulting around your needs in terms of service levels, capacity, performance and user skills, we will create a new system that is customized for your business.

### Comprehensive IT Solutions

- IT Assessment
- Solutions Design
- New Application Integration
- BlackBerry Enterprise Server installation and support
- Implementation
- Ongoing Systems Maintenance

### Benefits:

- Increase Business Efficiencies
- Reduce Downtime
- Maximize Productivity
- Complement your Existing IT Resources
- Enable your IT Resources to Focus on your Business

# REDUCED DOWNTIME EQUALS MORE PRODUCTIVITY

## New Application Integration

Do you need to improve your workflow and work more efficiently? Whether it's SMS messaging, hosted services, data collection or GPS fleet management, Preston Mobility can seamlessly integrate new applications into your current systems.

## Implementation

With our full implementation services, we can take care of making sure your new system and applications are integrated and working seamlessly –and free up your IT resources to focus on your business.

## Maintenance

Depending on your needs and level of IT resources, Preston Mobility will continually monitor your systems and perform any maintenance work, such as software upgrades.

*"The service we're receiving from Preston Mobility is fantastic. They really took the time to understand our business and we're already operating more efficiently and realizing savings".*

- Axiom Strategy Group – Blake Ponuick

## The Preston Mobility Team

The Preston Mobility team of highly-skilled customer relations and telecommunications professionals, backed by in-house IT expertise and support, is uniquely positioned to recommend customized solutions to your most complicated business problems.

Can your business afford not to call Preston Mobility?
