

Hosted Solutions

Hosted solutions to maximize your small business.

Seamlessly integrate hosted solutions into the wireless services for your organization. Through Preston Hosted Solutions, small businesses can access a comprehensive suite of customized hosting solutions, including:

- Hosted Exchange Email
- Website and Shared Hosting
- Private Server Hosting
- Managed and Dedicated Hosting

Benefits of Outsourcing your Hosted Solutions

Time, money and people. As a small business, you know these resources are scarce. That's why outsourcing your hosted solutions is the smart option. You eliminate a large up front financial investment, and the need to hire dedicated IT resources. Best of all, you can get up and running in minutes, receive administration support from trained experts and ensure your systems are secure.

Hosted Exchange Server with a BlackBerry Enterprise Option

Business class email. Advanced messaging. Information sharing tools. Get Microsoft Exchange Outlook and Outlook web access - anywhere, anytime.

- Use an advanced business-class mail server with Microsoft Exchange
- Manage user features, including timed mail delivery, inbox rules and reminders
- Share information through a browser or mobile device
- Collaborate using shared files, calendars, address books, tasks and public folders
- Access email and information in real-time via your mobile device
- Protect your business with daily backups & advanced anti-virus & spam protection
- Easily administer user accounts online

BlackBerry Enterprise Server Option

Access the most complete wireless email solution for business with our BlackBerry Enterprise Option. You receive instant access to email, contacts, calendars and task lists - on the road anywhere, anytime.

Don't waste time, money and people resources. Let us host your small business solutions. After all, it's your bottom line.

Benefits of Outsourcing:

- No large upfront investment
- No need for dedicated IT resources
- Get up and running in minutes
- Access administration support
- Ensure system security

Preston Mobility Hosted Solutions:

- Hosted Exchange Server
- BlackBerry Enterprise Server Option
- Hosted SharePoint Collaboration
- Website and Shared Hosting

Save time, money and people resources with Preston Mobility Hosted Solutions.

Collaboration. Information Management. Secure Hosting Options.

Get More Done with Hosted SharePoint

Collaborate with your team, your partners or your customers. Increase productivity by setting up an intranet or an extranet where you can organize information and set up workspaces.

- Personalize your site and set up permissions
- Collaborate on tasks, documents and projects
- Create documents and libraries
- Create document and meeting workspaces
- Share and manage information
- Customize and manage content and templates

Website and Shared Hosting

Host your website on a UNIX or Windows server through Preston Mobility, including free migration from your current provider, set-up and configuration. With no monthly contracts or set-up fees, what do you have to lose?

Virtual Private Server Hosting

Get all the power of a dedicated server - without the high costs. You won't compromise flexibility, control or security. By running its own independent operating system and mail/web/FTP servers, your Virtual Private Server performs the same as a stand-alone server for users and applications. This includes functions like rebooting, root access, applications, system libraries and IP addresses.

Managed and Dedicated Hosting

When you want to focus on growing your business and not your IT infrastructure, choose our Managed and Dedicated Hosting Option. Whether it's monitoring, back-up and security or patching, troubleshooting and upgrading, we cover it all.

- Customized solutions to meet your needs
- Reliable data centres using industry leading technology
- Performance and security of an Enterprise solution
- 100% network uptime

About Preston Mobility

A Bell Authorized Dealer, Preston Mobility is Metro Vancouver's only full service wireless business solutions company - providing customized solutions to your most complicated business problems.
